

The B B Price Group provide a high quality service to users of metal forgings, pressings & assemblies across a wide range of industries and is well equipped to meet the challenge of today's market place, as well as opportunities of the future.

We are UK market leaders in the supply of Overhead Transmission Line Fittings to the Regional Electricity Companies and the Telecommunications Industry. We are also a well established manufacturing supplier to the Civil Engineering, Construction, Defence, Railways, Agricultural and Mining Industries.

The Group has also developed products for the Commercial and Off-highway vehicle markets, as well as a variety of applications within the Leisure and Environmental Industries. We constantly promote the benefits of the forging process.

## OVERHEAD TRANSMISSION LINE & TELECOMMUNICATION FITTINGS

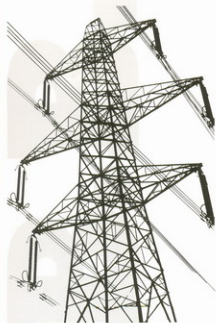

B B Price maintains substantial stocks of the majority of British Standard and ESI component parts.

This stocking policy enables us to offer a continuous service to the Regional Electricity and Telecommunication Companies thus enabling them to keep inventory costs to a minimum.

We pride ourselves on the service we give to these and other industries based on ensuring that our products are manufactured to the very highest standards of quality and competitiveness, enabling us to provide an attractive package to our customers.

Just a few of our many product lines:-

- Section Straps
- Eyebolts
- Insulator Hooks
- Turnbuckles
- Ball Pins
- Shackles
- Insulator Spindles
- Socket Connectors
